The following letter from Rev. W. H. Channing of this City states so succinctly the objects of the Fourierists that we cannot refrain from

New-York, Feb. 15th, 1844.

To the President of the Convention:
Your invitation to attend a Convention of Friends of Association, to be held in Concunati on the 22d of February, reached me yesterday; and I assure you nothing could give me more pleasure, if it were in my power, than to re-visit for such a purpose, a City which deserves the wide respect it has already won for its energetic interest in all modes of Social Progress; and to recommend to friends, whose sympathy and kindness will always be gratefully remembered, a cause, which I believe to be worthy of their devoted co-operation.—It is now three years since I first had the opportunity of advocating, before the Citizens of Cincinnati, the wisdom and practicability of Social Re-organization; and the experience of those years has immeasurably deepened my faith in associa-NEW-YORK, Feb. 15th, 1844. f those years has immeasurably deepened my faith in associa-

li was a thoughtfal tribute of respect to the Father of our Nation, thus to select his Birth-Day as the occasion for renewing your vows of allegiance to the great principles of Order, Justice, Freedom, Peace, to whose application his wise and pure life was consecrated. How imperfectly, as yet, do the Trath, which really are the life-blood of these United States, animate our National Policy and our Social Relations. Let our oppressions of the Africans—our robberies of the Indians—our habit of White Serfdom in all modes of industrial mans—our rate of white section—our eagerness, often as dishonest as rash, after Wealth—our customary deceit in Trade, both internal and external—our jealous competition between different classes and between our jealous competition between different classes and between members of the same classes—our imitations of foreign distinctions of caste—shame us into confession of national hypocray. Let us not boast, but repent. A great trust has been committed to this people by Providence and by our Race; let us be more faithful in the discharge of such honorable duties. The following are some of the Social troblems forced upon us for solution. It would be absurd vanity to say, that we have solved them thus far, notwithstanding the efforts of minutropists who have preceded this generation; it would be cowardice and implety to say, that they cannot be solved.

1 How shall we substitute radical justice for superficial Charity, and so prevent the Pauperism which threatens to undermine all civilized states;

nudermine all civilized states;
2. How shall we secure Order and Love, by attractions to good, rather than by force and pienishments constraining 3. How shall we raise Woman to co-equality with Man, denable her to exercise with freedom her affections and

energies;
4. How shall we render to every child in the first place, and then to every adult, the debt we owe—of highest culture, under healthy, pure and holy influences;
5. How shall we open to every individual, Man, Woman. Child, of all ages, and varieties of disposition and causacity, opportunity to exercise their peculiar powers for God's glory, their brethren's welfare, and their own growth;
6. How shall we enable every person to become a property holder. It receives in the groupeness for their measure of useful.

holder, to receive just recompense for their measure of useful-ness, and establish a system of mutual insurance, co-exten-sive with the necessities of life; stre with the necessities of life;
7. How shalt we bestow honor, where honor is deserved,
upon the Producers of Good and Truth and Beauty, and
suitably manifest disapprobation for wasteful and indolent expenditure of what the energies of Mankind have gained and

penditure of what, the energies of Mankind have gained and given;

2. How shall we extend to all, according to their tastes and fitness, freest access to all means of refinement and happiness, to the highest intellectual and social incitements, and so foster the genins and virtue now too often neglected;

9. How, in a word, can we practice in daily relations, our professed principles of Christian Brotherhood; and make our work, our worship, our every deed, praise, and prayer, our Religion a Life of Love to God and Man?

In the faith that "Association on the Basis of United Interests" will prove to be the actual fulfilment, which we all desire, of the Union of Freemen; and with the confident hope that the days are rapidly drawing nigh when the hervenly benediction "Glory to God in the Highest, on earth Peace, Good will to men," will be accomplished.

CONCLUSIVE PROOF OF THE EXTRAORDINARY EFFICACY OF

WISTAR'S BALSAM OF WILD CHERRY.

HADDONFILLD. New-Jersey, April 20, 1843.
On or about the 13th day of October, 1841, I was taken with a violent pain in the side near the liver, which continued for about five days, and was followed by the breaking of an ulcer, or something inwardly, which relieved the pain a little, but caused me to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he though he could do but little fer me except give me some Mercury Pills, which I refused to take, feeling satisfied they could do me no good;—many other remedies were then procured by my wife and friends, but none done me any good, and the discharge of blood and corruption still continued every few days, and at last became so offensive I could scarcely breathe. I was also seized with a violent cough, which at times cansed me to raise much more blood than I had done before, and my disease continued in this way, still growing worse until February, when all hopes of my recovery were given up, and my friends all thought I would die of a galloping consumption. At this moment, when my life was apparently drawing near its close, I heard of Dr. Wistar's Balsam of Wild Cherry and got a bottle, which relieved me immediately, and by the use of only three bottles of this medicine, all my pains were removed, my cough and splitting of blood and corruption entirely stopped. ELIZABETH Town, December, 2, 1343.

Messrs. Sands, gent.—It is with heartfelt gratitude for your kindness to me that I make a public acknowledgement of the benefit I have received from your Sarsaparilla. I have been for many years afflicted with a cancer in the breast, and for four years it was as I thought incurable; it spread very fast, so

four years it was as I thought incurable; it spread very fast, so that it had nearly covered the whole breast, and for many weeks I was so reduced with the loss of blood and the pain of the wound, that I was unable to turn myself in bed, and my sufferings during the whole winter were more than I can tell. With the advice of my friends I called two of the most eminent physicians of the place who recommended your preparation of Sarsaparilla, knowing of nothing that would be as likely to help me; which advice I readily received, and before I had taken one bottle I found a change in my feelings which induced me to take more, and when I had taken the thir I bottle I was like another person both in health and strength bottle I was like another person both in health and strength. I have taken your preparation since last March, and although the wound is not entirely healed it is in a very favorable state,

the wound is not entirely healed it is in a very favorable state, and I believe it will be the means, ultimately, of myentire cure; and that the afflicted may all find the relief which it alone cau give is the wish of their and your friend.

I am the niece of Eunice Woodruff, have been brought up by her, and know what she states to be true, for I have had all the care of her through her sickness.

I am well acquainted with Miss Woodruff and knew her situation previous to the use of Sands's Sarsaparilla, and have witnessed the surprising effect produced by it, and can therefore endorse fully the above statement. fore endorse fully the above statement.

John Conger of New York, has, in a sailed my character and charged upon me the attempt to palm off spurious edge tools by means of the same stamp which he has seen fit to use, but to which he has in fact no right, and as he has seen fit to implicate in the same charge the firm of Osborn & Little, with whom alone my tools are for sale, I deem it my duty to make the following statement and then leave the public to judge who is the guilty party. More than sixty years since, my father, Thomas Conger, followed the business of making edge tools in the neighboring State of New Jersey, and invariably used the stamp of "Couger," and that too when said John Conger was blowing the bellows to his forge as his apprentice. To that business I was brought in pand when my father gave up his business I was brought apparentice. To conger was with my father about years as an apprentice and journeyman; he says (inferentially) in his advertisement he never learned anything of my father during that time. If he means by that to slander the dead, as incapable of teaching him, the reputation of my father's Tools, both at home and abroad, will stamp falsity upon the assertion.

it in that respect true.

Of one thing, however, I will give John Conger the credit, if that part of his advertisement be true, and that is of attempting to be honest in now assuming the stamp which he ought to have taken in the first place and left my stamp to those who alone were entitled to it, and not make it the stepping stone to his own success and its unjustifiable use by himself a plea for the market. As of right, I shall continue the stamp heretofore used by me and my father before me. As to my tools, they require no other than their own intrinsic merit to give them character, and I would not now be before the public to assert my own rights in respect to them, had not John Conger basely assailed, with my own, the character of Messrs. Osborn & Little, who are and will be in future my sole Agents in this City.
